

Coming for an Evaluation

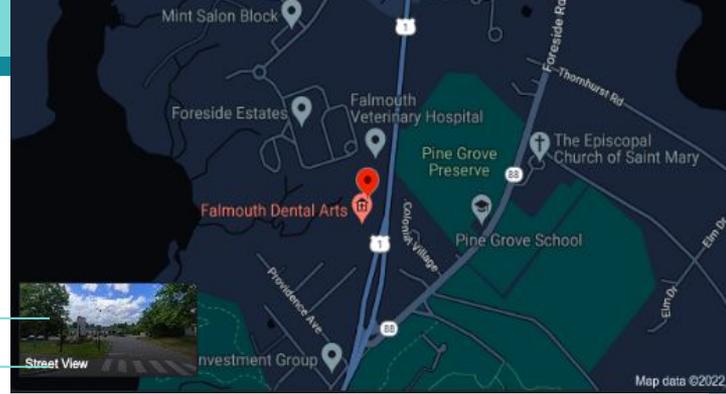

Social Story

On your way to the clinic...

You may see
fast food places,
other cars,
nature, lights,
and more...

Can you find
the the fair
grounds, fire
station, or the
school?

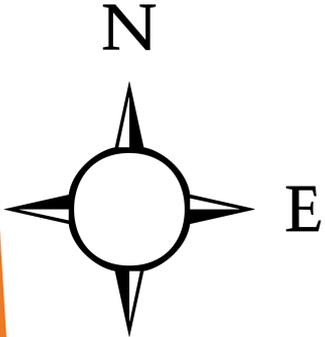

North

East

West

South

Are you
passing the
ocean, pond,
or river?

On the bridge,
iSpy a metal
bird and
water...

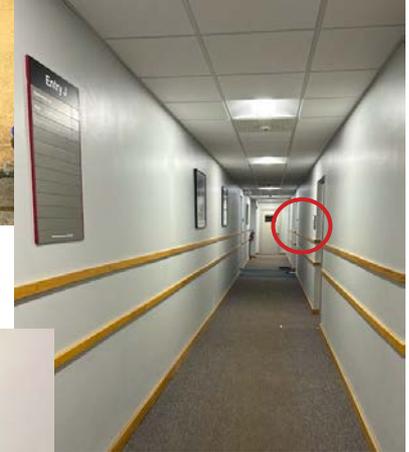

Arriving

Once you arrive at the clinic, you will drive right beside the building to find a large parking lot discovered behind it.

After parking, you will walk into door J that leads to StoreySmith Pediatric Clinic.

After finding door 100 inside, you will enter the waiting room. You may want to take your shoes off before entering so you don't track in any dirt, mud, snow, water, salt, etc. A mat will be found to the left of the door.

After entering, there is an office to the right where you will check in with the person waiting in the office! That person will then let your speech, occupational, or physical therapist know that you are waiting!

This experience may be new and scary. There are legos or books to read while waiting to help calm your body down. Once your therapist comes out, they will hand your grown up paperwork to fill out while you get to go play! You get to do some fun activities like writing, drawing, cutting, playing with blocks or beads, and doing other things with your hands.

At the end, you may also do fun movements with your whole body, like copying how the therapist moves or doing hopscotch. Some fun poses may be the tree, superman, and armadillo! You can challenge your therapist too!

After the questions with the grown up are done, it will be time to go! We will all walk back into the waiting room area to exit out the same door you first entered in.

For grown ups:

Initial evaluations will be password protected and emailed within 15 business days to you about the results from the evaluation!
