

Coming in for Individual Session

Social Story

At the start of each session,

You will take your shoes off and leave them on the shoe mat located just outside the door of the waiting room.

We don't want to track all the salt, dirt, water, snow, etc. into the clinic where we will be in our dry socks!

You will check in at the office after entering the door. The therapist will come get you when it is time to start. You will go wash your hands at the sink. Then your play time will begin!

Most of the time, you will discuss with your therapist about the plan for the session. This may include worksheets, games, movement, books, building, arts and crafts, and more!

Once one activity is done, you will start the next one. This could be anything fun the therapist has planned.

You will be in a session with your therapist

For as little

As 25 minutes to
32 minutes or

As long as

Up to 60 minutes!

When it is time to go home, you will go back into the waiting room area to find your grown up. You and your therapist will tell your grown up about all the fun activities you did during your session. This may be done in the waiting room, back where you did those activities, or within the kitchen area! Be on the lookout for the secret passage that connects to this kitchen! Then, once you and your therapist are finished telling your grown up about all your activities, it will be time to go home until the next time you get to come play!

But don't worry, you will get to come back soon and play again!

Make sure to stay with your grown up and walk to your car as others may be arriving in the parking lot as well! The parking lot may be busy with cars and people.
