

Welcome to StoreySmith Pediatric Clinic!

Welcome to the Pediatric Therapy Clinic

The StoreySmith Pediatric Clinic is a place where children come to learn and grow. There are friendly therapists who help us with different activities. We will have fun and learn new things together.

What is Occupational Therapy?

Occupational Therapy helps us learn how to do everyday tasks easier. We might practice things like brushing our teeth or playing with toys. The therapist will help us get really good at these activities.

What is Physical Therapy?

Physical Therapy helps us move our bodies better. We might do exercises like jumping or balancing. The therapist will show us how to do these activities with fun games like obstacle courses.

What is Speech Therapy?

Speech Therapy helps us with talking and understanding words. We might play games that help us say words or communicate our needs more clearly. The therapist will help us communicate better and understand more.

What is Feeding Therapy?

Occupational Therapist's at StoreySmith can help you with Feeding. Feeding therapy helps us learn how to eat and swallow better. We might practice trying new foods or using utensils. The therapist will help us enjoy mealtime and eat safely.

What to Expect at the Clinic

When we arrive at the clinic, we will check in at the front desk. We might wait a little in the waiting room before seeing our therapist. It's a friendly place where we can feel safe and play with toys.

Meeting New Friends

At the clinic, we will meet other children who are also learning and growing. We can play and learn together. Making new friends is fun!

Fun Activities and Learning

There are many fun activities at the clinic. We might play with toys, do puzzles, or read books. These activities help us learn new things.

How We Help Each Other

At the clinic, we help each other. We listen to our therapists and try our best. Working together makes us stronger and happier.

Celebrating Progress Together

When we do something new or better, we celebrate!
Our therapists and friends will cheer for us. It's exciting
to see how much we are growing.
